

In compliance with U.S. Department of Education regulations, HutchCC provides information pertaining to professional licensure and certification for all relevant programs.

## Professional Licensure Requirements May Vary State to State

HutchCC offers a number of programs that lead to professional licensure or certification within the State of Kansas as well as potentially, other states. States vary in what professions they require to be licensed and how licensure or certification functions. Some states require individuals to graduate from an approved program. Others require individuals to meet the requirements of a national organization. Specific amounts of training may also be required as well as passage of an exam based on state requisite exam score. Additionally, certain licensed professionals may be required to complete continuing education annually to maintain licensure or certification.

## Disclosures Based on Student Location

The U.S. Department of Education requires direct disclosures of professional licensure or certification information to students based on their locations. HutchCC identifies the location of its students based on information provided by students during the registration process identifying students' physical locations or upon relocation.

Relocating to another state prior to completing a program may affect state licensure requirements. Prior to considering relocation, students are advised to contact their programs to discuss licensure and certification eligibility requirements. Following relocation, students must update their address at <https://www.hutchcc.edu/records>. HutchCC will not consider a student to have relocated until the Records Department has updated information.

## What All Students in Licensure Programs Should Do

Prior to enrolling in any program at HutchCC, **prospective students living and/or working out of the United States should confirm with the appropriate licensing or certifying agency** whether successful completion of any program at HutchCC will meet the credentialing requirements of the country in which they intend to seek employment.

Students should **review the specific requirements for the program** in which they are enrolling, including those related to practicum/internships as well as pre-qualifications for licensure, such as the need for a criminal background check.

HutchCC strongly recommends that students **contact the applicable licensure board(s) in their state of residence or in the state where they intend to obtain a license before beginning an academic program** that results in licensure or certification and prior to beginning any practicum/internship.

Many licensing and certifying boards require more than successful degree completion to obtain a license or certification. Please be advised that **state laws, regulations, and policies may change at any time**, which can impact the program's ability to meet educational requirements.

Potential changes in requirements may occur. HutchCC reviews licensure information every summer. While a program may originally meet the educational requirements for licensure, changes in requirements could impact the program's ability to meet any new educational requirements.
